## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
3. *Mr Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the government occasionally, and from time to time, consider accepting the advice of the Commission on Election Finances under section 72 of the Legislative Assembly Act, concerning the indemnities and allowances afforded members of the assembly, unless it is concerned that the shock would be too great for members of the commission not to mention the members of the Assembly. *May 3, 1989.*

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

GOVERNMENT MOTIONS

2. *Debated May 8, 1989.*

---

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
3. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing the inability of the Liberal government to ensure auto insurance protection for Ontarians or progressive reform of the workers' compensation system, and recognizing that numerous government studies have supported the concept of a universal sickness and accident system; the Government of Ontario should introduce legislation during its current mandate to implement a universal sickness and accident insurance program; and further that this legislation should be based on the results of a widespread open public consultation held between now and the introduction of a bill. *May 9, 1989.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
4. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing the inability of the Liberal government to ensure auto insurance protection for Ontarians or progressive reform of the workers' compensation system, and recognizing that numerous government studies have supported the concept of a universal sickness and accident system; the Government of Ontario should introduce legislation during its current mandate to implement a universal sickness and accident insurance program; and further that this legislation should be based on the results of a widespread open public consultation held between now and the introduction of a bill. *May 9, 1989.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
4. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing the inability of the Liberal government to ensure auto insurance protection for Ontarians or progressive reform of the workers' compensation system, and recognizing that numerous government studies have supported the concept of a universal sickness and accident system; the Government of Ontario should introduce legislation during its current mandate to implement a universal sickness and accident insurance program; and further that this legislation should be based on the results of a widespread open public consultation held between now and the introduction of a bill. *May 9, 1989.*
5. *Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined. *May 10, 1989.*
6. *Mr Owen*—Resolution—That, in the opinion of this House, recognizing the unique nature of owned-home leased lot retirement communities, the Government of Ontario should undertake a review of these communities that would include: the apportionment of common amenities and services; tenure arrangements including leaseholds, life leases and condominiums; verification of maintenance and operating expenditures; contractual restrictions on the right of resale of units; the absence of fiduciary regulation; the registrability of leases and the role of rent regulation for these communities. *May 10, 1989.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
4. *Debated May 11, 1989.*
5. *Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined. *May 10, 1989.*
6. *Debated May 11, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Individual Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

**PRIVATE MEMBERS' BUSINESS TO BE DEBATED**

*(Precedence in accordance with the Standing Order 71 (d).)*

Ballot Items Number 1 and 2. *Debated May 11, 1989.*

Ballot Item Number 3.—*To be debated on Thursday, May 18, 1989.*

*Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined.

Ballot Item Number 5.—*To be debated on Thursday, May 25, 1989.*

*Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

## NOTICES

### GOVERNMENT MOTION

3. *Mr Nixon* (Brant-Haldimand)—Resolution—That this House approves in general the Budgetary Policy of the Government. *May 16, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
5. *Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined. *May 10, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Individual Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

9. *Mr Matrundola*—Resolution—That, in the opinion of this House, recognizing the benefit of having the elderly, disabled and chronically ill remain in their own homes, the Government of Ontario should establish a framework to allow for the relatives of frail elderly, chronically ill and disabled persons to care for them at home, where mutually agreeable and medically possible, by compensating the caregiver at the same rate as qualified home-makers, and that the Government of Canada be urged to allow the caregiver to maintain Canada Pension Plan and Unemployment Insurance contributions. *May 16, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Mr Nixon* (Brant-Haldimand)—Resolution—That this House approves in general the Budgetary Policy of the Government. *May 16, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
5. *Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined. *May 10, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Individual Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

9. *Mr Matrundola*—Resolution—That, in the opinion of this House, recognizing the benefit of having the elderly, disabled and chronically ill remain in their own homes, the Government of Ontario should establish a framework to allow for the relatives of frail elderly, chronically ill and disabled persons to care for them at home, where mutually agreeable and medically possible, by compensating the caregiver at the same rate as qualified home-makers, and that the Government of Canada be urged to allow the caregiver to maintain Canada Pension Plan and Unemployment Insurance contributions. *May 16, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
5. *Mr Runciman*—Resolution—That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined. *May 10, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Individual Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

9. *Mr Matrundola*—Resolution—That, in the opinion of this House, recognizing the benefit of having the elderly, disabled and chronically ill remain in their own homes, the Government of Ontario should establish a framework to allow for the relatives of frail elderly, chronically ill and disabled persons to care for them at home, where mutually agreeable and medically possible, by compensating the caregiver at the same rate as qualified home-makers, and that the Government of Canada be urged to allow the caregiver to maintain Canada Pension Plan and Unemployment Insurance contributions. *May 16, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17 and 18, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
5. *Debated May 18, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Individual Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

9. *Debated May 18, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17, 18 and 23, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for franco-phones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

174. *Mr Wildman*—Enquiry of the Ministry—Would the Minister of Natural Resources table in the Legislature a listing of all expenditures made by the Ministry in 1988 and to date for 1989 on all legal expenses related to proceedings under the Crown Transfers Act in regard to applications brought forward by the Ontario Public Service Employees Union. *May 18, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17, 18, 23 and 24, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
7. *Mr Laughren*—Resolution—That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for francophones and natives; and

improvements to the medically necessary travel grants. *May 15, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

12. *Mr Cousins*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*

174. *Mr Wildman*—Enquiry of the Ministry—Would the Minister of Natural Resources table in the Legislature a listing of all expenditures made by the Ministry in 1988 and to date for 1989 on all legal expenses related to proceedings under the Crown Transfers Act in regard to applications brought forward by the Ontario Public Service Employees Union. *May 18, 1989.*
175. *Mr Wildman*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet table in the Legislature a listing of all expenditures made by the Ontario government in 1988 and to date for 1989 on all legal expenses related to proceedings under the Crown Transfers Act in regard to applications brought forward by the Ontario Public Service Employees Union. *May 18, 1989.*

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24 and 25, 1989.*
4. *Mr Nixon* (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing June 1, 1989, and ending July 31, 1989, such payments to be charged to the proper appropriation following the voting of supply. *May 29, 1989.*

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
7. *Debated May 25, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with

regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
12. *Mr Cousins*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure the sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and sci-

entific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

### GOVERNMENT MOTIONS

3. *Debated May 17, 18, 23, 24 and 25, 1989.*
4. *Debated May 31, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act*, 1987 to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
12. *Mr Cousins*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

## NOTICES

### GOVERNMENT MOTION

3. *Debated May 17, 18, 23, 24 and 25, 1989.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
12. *Mr Cousins*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

### PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act*, 1987 to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*

13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*

14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medi-

cal and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

## PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act*, 1987 to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*

12. *Mr Cousins*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*

13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*

14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medi-

cal and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*
